

Conflict of Interest Policy and Author Disclosure

Public trust in the peer review process and the credibility of published articles depends in part on how well conflict of interest is handled during writing, peer review, and the editorial decision-making process. Conflict of interest exists when an author of a manuscript or a letter to the editor (or the author's department, division, center, or clinical practice), a reviewer, or an editor has financial or personal relationships with other persons or organizations that could inappropriately influence (bias) his or her actions. Furthermore, any interest that may raise the perception of conflict of interest or bias should also be considered to represent a potential conflict of interest. Disclosure of author conflict of interest will be published along with the manuscript, if the manuscript is accepted. It will not be disclosed to reviewers of the manuscript and will have no bearing upon acceptance or rejection of the manuscript, which will be evaluated on its scientific merit.

ARTICLE TITLE: _____

COMPLETE CITATION: _____

This questionnaire must be completed and must be signed by every author of the above-referenced work (the "Work") and returned to *Advances in Pulmonary Hypertension* office at the time of manuscript submission. *Advances in Pulmonary Hypertension* will not publish any Work or make any commitment or agreement to publish any Work until *Advances in Pulmonary Hypertension* receives a completed questionnaire signed by all authors of the Work. Failure to accurately and fully disclose a conflict of interest by an author will, upon discovery, be reported to the author's university, institution, employer, and/or funding agency.

The intent of this statement is to ensure complete disclosure. If you are in any doubt as to whether a source of funding or other benefit(s) constitutes a conflict of interest or might be so construed, err on the side of disclosure. The questions herein are intended to help you and must be answered.

Question 1:

Did you receive any outside funding or grants in support of your research for or preparation of the Work?

Yes, I/we received, in any one year, grants or outside funding from the following person(s) or entity(ies).

No.

Question 2:

Have you, or a member of your immediate family, received from any commercial entity any payments or any pecuniary, in kind, or other professional or personal benefits including stock, honoraria, or royalties (collectively, "Benefits") or any commitment or agreement to provide such Benefits?

Yes, I/we received, in any one year, payments or other Benefits or a commitment or agreement to provide such Benefits from the following commercial entity(ies).

No.

Question 3:

Within the last 3 years, have you had status as an officer, a member of the Board, or a member of an Advisory Committee of any entity engaged in activity related to the subject matter of this contribution. Please disclose the nature of these relationships and the financial arrangements.

Yes, I have a management/advisory relationship, the nature of which is described as follows:

No

Question 4:

Within the last 3 years, did you receive consulting fees, honoraria, speaking fees, or expert testimony fees from entities that have a financial interest in the results and materials of this study? Please enumerate.

Yes, I have a paid consulting relationship, the nature of which is described as follows:

No

Question 5:

Do you have a planned, pending, or awarded patent on this work by you or your institution?

Yes, I or my institution has a patent related to this work, which is described as follows:

No.

Personal signatures only.

Stamped or electronically generated signatures are invalid.

I declare that I have read *Advances in Pulmonary Hypertension's* full Conflict of Interest Policy and have disclosed all declarable relationships as defined therein, if any.
